

Congregation Anshei Israel's

**HAZAK
invites you to join us for**

Jewish scientist Rosalind Franklin's X-ray imaging revealed DNA's double helix structure, leading to a Nobel Prize ... but not for her.

Relive the competitive chase to be the first to map the DNA molecule in this riveting story of a young, ambitious scientist and her unsung, trailblazing achievements.

**Sunday,
February 23, 2014
3:00pm**

5317 E. Speedway

\$15 per person.

Hurry, seating limited!

**RSVP & payment required
by Feb. 17.**

**Call Linda Roy at
745-5550, ext. 222.**
